Mould Sample Analysis

If you want to know if a material has mould growth we require the following:

1. Provide us with a bulk sample or tape lift of the discoloured or suspect material in a heavy duty sealed ziplock bag. Call our office for additional information on how to collect a sample 780-440-4880
2. Ensure sufficient sample quantity and quality of the material are included in the sample.
3. Label the bag with the following information:
 - a. The building name and address
 - b. The location in the building
 - c. A description of the sample
 - d. The date the sample was taken
 - e. Any numbering or code system that your organization uses
 - f. Who the results are to be sent to
 - g. Who the bill is to be sent to
4. Deliver the sample to RH Services Inc. at 7340 82nd Avenue for mould analysis. There is an after hours drop slot through the front door.
